

OBJECTIVE

Motivated MCA graduate with strong skills in Python, SQL, web development, and data analytics. Experienced in building full-stack applications and data dashboards through real-world internships. Seeking an entry-level IT role to apply technical expertise and problem-solving ability to contribute effectively to organizational growth.

EDUCATION

Sathyabama Institute of Science and Technology	Tamil Nadu, India
Master of Computer Application; CGPA: 7.63	August 2024 – April 2026
St. Joseph’s College of Arts and Science	Tamil Nadu, India
Bachelor of Computer Application; CGPA: 7.11	August 2021 - May 2024
John Dewey Martic HR Sec School	Tamil Nadu, India
HSC; 74.33 %	June 2020 – March 2021
John Dewey Martic High School	Tamil Nadu, India
SSLC; 63.8 %	June 2018 – March 2019

SKILL SUMMARY

- **Languages:** SQL, Python, Php.
 - **Frameworks & Libraries:** Django, Pandas, NumPy, Matplotlib, Seaborn
 - **Databases:** PostgreSQL
 - **Tools:** Visual Studio Code, Excel, Power BI, Jupyter Notebook.
 - **Version Control:** Git, GitHub, Docker.
 - **Other Skills:** Data Analysis, Dashboarding & Reporting
 - **Soft Skills:** Communication skills, Teamwork, Problem-Solving, Eagerness to learn.
-

INTERNSHIP CERTIFICATE

Completed a MERN Stack Developer Internship at BM TECHx, Pondicherry, gaining hands-on experience with MongoDB, Express.js, React.js, and Node.js.

Successfully completed a Data Analytics Internship at Gradtwin, Sholinganallur, Chennai, acquiring practical experience in data analysis, dashboard development, reporting, Excel, Python, and Jupyter Notebook.

STARTUP & INNOVATION EXPERIENCE

Presented the "IAttend" face recognition attendance system at StartupTN DPIIT Connect meet, explaining the project to potential investors.

PROJECTS SUMMARY

DIRECT2FARMER (D2F):

Platform connecting farmers and customers directly, ensuring transparent pricing and eliminating intermediaries.

IATTEND:

Mobile attendance tracking system with location-based check-ins for students and educators.

SPY CAMERA DETECTOR:

Security tool to detect hidden cameras via reflection and network scan using web technologies.

UZHAVAN KART:

Developed *UzhavanKart*, a farmer-to-customer e-commerce platform enabling direct farm produce sales with hub-based storage and managed delivery system.

DEPLOY: <https://uzhavankart.onrender.com/customer/home/>

UDEMY COURSES PERFORMANCE DASHBOARD:

The project demonstrates practical skills in data cleaning, exploratory data analysis (EDA), visualization, and business insight generation using Python and Power BI-style thinking.

CERTIFICATION

- Successfully completed the Hacker Rank SQL (Advanced) certification.
